SUMMARY

Computer Science undergraduate graduating in May 2027 with hands-on experience building full-stack and AI-powered applications using JavaScript, React.js, Node.js, Express.js, Firebase, and REST APIs. Strong foundation in Java, Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks, with 100+ LeetCode problems solved. Experienced in independently developing scalable software solutions, integrating AI services, and implementing authentication, APIs, testing, and performance optimization. Available for software engineering internships and full-time opportunities.

EDUCATION

Bachelor of Technology, Computer Science & Engineering 2023 — Present
Jai Narain College of Technology (JNCT), Bhopal 8.04

SKILLS

Languages: Java · JavaScript · SQL

Frontend: React.js · HTML5 · CSS3 · Responsive Web Design · Tailwind CSS

Backend: Node.js · Express.js · REST APIs

Databases: Firebase Firestore · MongoDB · MySQL

AI & Authentication: Google Gemini API · Google OAuth · JWT

Core CS: Data Structures & Algorithms · OOP · DBMS · Operating Systems · Computer Networks

Tools: Git · GitHub · Postman · VS Code

PROJECTS

Deadline Guardian AI
deadlineguardian-ai.firebaseapp.com
Jun-2026
- GitHub
- **Engineered 20 RESTful API endpoints** using Node.js and Express.js to orchestrate a **5-agent Google Gemini AI system** for Priority, Risk, Recovery, Schedule, and Coaching workflows.
- **Load-tested** the backend using **k6/Artillery**, validating **500+ requests/second (RPS)** at **p99 latency below 150 ms** with a **0% error rate** under simulated heavy load.
- **Implemented** automated API testing with **Jest and Supertest**, establishing coverage thresholds of **90% for lines/functions and 85% for statements**.
- **Optimized** backend responsiveness to maintain **sub-100 ms API response times** and reduced initial cold-start latency from approximately **50 seconds to under 2 seconds** through keep-alive mechanisms.

Tech | React.js | Vite | Node.js | Express.js | Firebase Firestore | JWT | Gemini API | Jest | Supertest | bcrypt

PrepSync-AI
prepsyncai.vercel.app
Feb-2026 to May-2026
- GitHub
- **Developed** an AI-powered study and exam planning SaaS that generates personalized study paths and allows users to regenerate plans based on their preparation needs.
- **Engineered** serverless backend APIs using Node.js/Vercel Functions to integrate the **Google Gemini API**, Firebase Admin SDK, and Nodemailer for AI plan generation, secure data operations, and automated transaction alerts.
- **Implemented** Firebase Authentication with custom OTP verification and Firestore transactions to enforce a **5 AI-plan regenerations-per-month limit per user**, preventing unauthorized usage beyond the defined quota.
- **Optimized** frontend performance using a framework-free SPA architecture with modular Vanilla JavaScript and custom CSS variables, achieving **sub-100 ms First Contentful Paint (FCP)**.
- **Tested** serverless backend functionality using firebase-functions-test and maintained code quality with ESLint and automated scripts.

Tech | HTML5 | CSS3 | JavaScript | Node.js | Firebase | Google OAuth | Google Gemini API | Nodemailer | Vercel Functions

SoulHelp-AI
github.com/akashchouhan335/SoulHelp
Aug-2025 to Nov 2025
- **Developed** an empathetic AI conversational platform using Vanilla JavaScript, Google Gemini API, and Web Speech API, with client-side session management and custom chat-state handling.
- **Implemented** a resilient **multi-model Gemini fallback chain** with exponential backoff to handle API quota limits and improve conversational availability.
- **Designed** automated tests targeting **95%+ coverage** across validation states, interactive modals, and Web Speech API event handlers.
- **Optimized** the client-side application to achieve **sub-250 ms page load time** and a **100/100 Lighthouse performance score** by avoiding heavy JavaScript framework overhead.

Tech | HTML5 | CSS3 | JavaScript | AI Integration | Node.js

KEY ACHIEVEMENTS

Rank 40
National Entrepreneurship Challenge (NEC) 2025, E-Cell IIT Bombay.

Cognizant Technoverse Hackathon 2026
Participant

Coding Ninjas × Google for Developers Hackathon
Participant

EXTRACURRICULARS

Entrepreneurship Cell (E-Cell), JNCT 2025
Event Management Head
- Managed planning and execution of **5+ entrepreneurship and technical events**, coordinating volunteers, schedules, and event logistics.
- Contributed to the team that achieved **Rank 40 nationally in the National Entrepreneurship Challenge (NEC) 2025**.

VOLUNTEERING

Unit Head/Camp Leader 2024 — 2026
National Service Scheme (NSS)
- Served as Unit Head for **2 years**, coordinating community-service initiatives and student volunteers.
- Led **2 consecutive 7-day NSS Special Camps** as Camp Leader, managing **50 volunteers**.
- Organized campus-wide awareness initiatives involving **100+ student participants**.
